

HARVIA QUBE PRO

HQU3604M

TThe Harvia Qube Pro series is the pinnacle of sauna heater engineering, created for large commercial saunas and continuous operation. Qube Pro range features two different models Qube Pro 240 and Qube Pro 360. The heater's power can be set during installation by changing the electrical connections. The Qube Pro 240 can be set to 18, 21, or 24 kW, and the Qube Pro 360 to 30, 33, or 36 kW.

Advantages

- Adjustable power settings: Qube Pro 240 (18/21/24kW) and Qube Pro 360 (30/33/36kW) – set during installation
- Durable exterior with brushed and powder-coated stainless steel
- All interior parts made from stainless steel
- Easy maintenance with a removable connection box
- High-quality triple-layer coating for extra protection
